RUSHLORE

Apple Test Flight - First public beta

How to Join the RUSHLore TestFlight Beta (iOS)

Thank you for helping test **RUSHLore**!

Follow these simple steps to install the beta version via TestFlight and start testing.

PRE Test Flight > Go to the Yellow-Bird.tech dev site and ask to be added to the test group > https://yellow-bird.tech/RUSHLore/testflight-signup.php

Once we have that we will set you up and you will receive an email to download the app.

Before downloading follow these steps from apple.

Step 1: Install TestFlight (if you don't have it already)
1.	Open the **App Store** on your iPhone or iPad.
2.	Search for **TestFlight** (it's free, made by Apple).
3.	Tap **Get** / **Install** and wait for it to download.

Step 2: Accept the TestFlight Invitation
You should have received an email from Apple with the subject: "RUSHLore is now available for testing"
(or similar – from noreply@email.apple.com).
1.	Open that email on your iPhone/iPad.
2.	Tap the blue button that says **View in TestFlight** (or **Start Testing**).
3.	This should automatically open the **TestFlight** app.

Step 3: Install RUSHLore
1.	In the TestFlight app, you should now see **RUSHLore** listed.
2.	Tap **Install** next to RUSHLore.
3.	Wait for the download and installation to finish (it may take a minute or two).

Step 4: Open and Test!
1.	Once installed, you can find RUSHLore on your home screen (it will have the TestFlight badge in the corner).
2.	Tap to open and start testing!

Important Notes
- **Beta version**: This is a test build – expect some bugs. That's exactly why we need your feedback!
- **TestFlight expiration**: Builds usually expire after 90 days, but we'll send new versions as we improve the app.
- **Feedback**: Please send your thoughts, bugs, crashes, and suggestions! You can do this right inside the TestFlight app:
- Open TestFlight → tap **RUSHLore** → scroll down → tap **Send Feedback**
- Or email us directly at: info@yellow-bird.tech

Troubleshooting
- **"Build not available"**: Make sure you accepted the invitation and that the build is still active (we'll let you know when new builds are ready).
- **No invitation email?** Check your spam/junk folder, or ask us to resend the invite.
- **App won't install?** Make sure you have enough storage space and that you're signed in with the same Apple ID you used to accept the invite.

Thanks again for your help testing **RUSHLore**!

Your feedback makes a huge difference.

Happy testing!
